

SYDNEY - SOCIETY FOR  
CONSERVATION BIOLOGY

# Conservation Café

Saturday April 11<sup>th</sup> @ 10am – Learning Centre, Centennial Parklands

[RSVP on EVENTBRITE](#)

Are you interested in the conservation of the Earth's biological diversity? Would you like to meet like-minded people and hear about the work being done in the Sydney Region and beyond?

**Conservation Café** is a monthly event hosted by the [Sydney-Society for Conservation Biology](#) to celebrate and learn about the incredible work being done by our region's conservation professionals and volunteers over a cup of coffee and a chat. Monthly guests will include a wide range of people interested in the conservation and study of biological diversity: resource managers, educators, government and private agencies, and students.

This April, Sydney-SCB welcomes **Dr Daniel Ramp, Director of the Centre for Compassionate Conservation at UTS**. Daniel Ramp is a leading conservation biologist with an interest in landscape ecology, behavioural ecology, road ecology, human-wildlife conflicts and ethics in decision-making. Daniel has been instrumental in the development of the international movement of Compassionate Conservation, which considers the welfare of individuals alongside other factors when setting objectives. It represents a paradigm shift for conservation by incorporating ethics and animal welfare into contemporary conservation practice and seeks to overcome conflicts exacerbated by entrenched policies and institutional rhetoric.

Daniel is the Director of the [Centre for Compassionate Conservation at UTS](#). The centre's goal is to stimulate innovation, novel research, and teaching practices that make the lives of wild animals better. It focuses on national and international challenges involving human-wildlife conflict, wildlife trade, conservation of endangered species and their habitats, and the well-being of wild animals. More information can be found at [compassionateconservation.uts.edu.au](http://compassionateconservation.uts.edu.au).

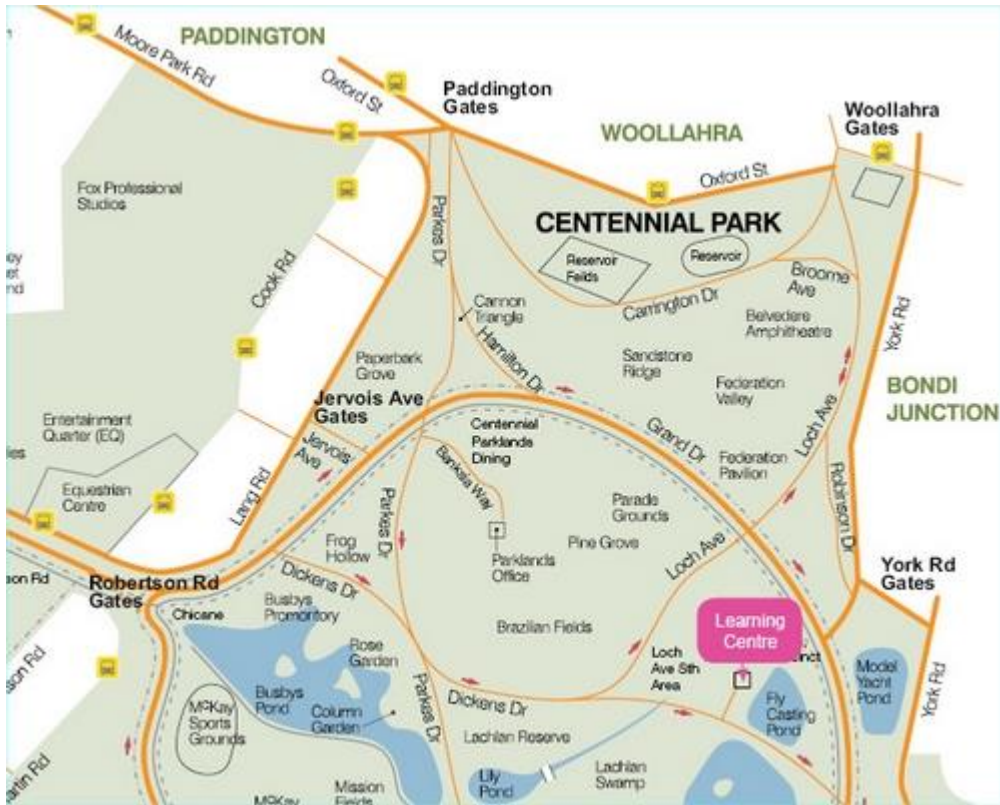

Complimentary tea, coffee and pastries provided by Sydney-SCB with re-usable cups available for purchase with proceeds going towards our conservation projects.

**About Sydney-SCB:** The [Sydney-Society for Conservation](#) is a regional chapter of the global [Society for Conservation Biology](#), and the third chapter formed in the Oceania Region. Our mission is to advance the science and practice of conserving the biological diversity of the Sydney Region and beyond.
