

SYDNEY - SOCIETY FOR
CONSERVATION BIOLOGY

Conservation Café

Saturday May 2nd @ 10am – Learning Centre, Centennial Parklands

[RSVP on EVENTBRITE](#)

Are you interested in the conservation of the Earth's biological diversity? Would you like to meet like-minded people and hear about the work being done in the Sydney Region and beyond?

Conservation Café is a monthly event hosted by the [Sydney-Society for Conservation Biology](#) to celebrate and learn about the incredible work being done by our region's conservation professionals and volunteers over a cup of coffee and a chat. Monthly guests will include a wide range of people interested in the conservation and study of biological diversity: resource managers, educators, government and private agencies, and students.

This May, Sydney-SCB welcomes **Michael McFadden**, the **Unit Supervisor of the Herpetofauna division** at [Taronga Zoo](#). Michael began working at Taronga Zoo in January 2003 and now oversees the maintenance and husbandry of the **Zoo's collection of reptiles and amphibians**. He works closely with the Zoo's conservation projects which include captive breeding and release programs for the highly endangered **Southern and Northern Corroboree Frogs**. The current focus of Michael's work is developing techniques to improve captive breeding and rearing success in threatened Australian frogs and reintroduction biology.

Complimentary tea, coffee and pastries provided by Sydney-SCB with re-usable cups available for purchase with proceeds going towards our conservation projects.

About Sydney-SCB: The [Sydney-Society for Conservation](#) is a regional chapter of the global [Society for Conservation Biology](#), and the third chapter formed in the Oceania Region. Our mission is to advance the science and practice of conserving the biological diversity of the Sydney Region and beyond.
