Potsdam, 17 June 2020

IASS Fellowship Programme

Dear Sir or Madam,

With this letter, we would like to inform you about an open call for fellowships at one of our partner organisations, the Institute for Advanced Sustainability Studies (IASS) in Potsdam.

The IASS was founded in 2009 as an institute for inter- and transdisciplinary research on sustainability topics. The University of Potsdam was one of its founding members and continues to be a member of the IASS General Assembly. The IASS is financed by the State of Brandenburg and the Federal Ministry for Education and Research. Over the years, the University and the IASS have cooperated on many different projects and have also established several joint professorships.

The IASS Fellow Programme is key to the institute's work. Every year, up to 30 fellows come to the IASS for a maximum of one year. The Fellow Programme is designed to bring world-class researchers together with practitioners from outside academia so that they can share their expertise and insights among themselves and with the wider research community in the Potsdam-Berlin area. The IASS supports fellows in their endeavours and covers their additional living expenses during their stay in Germany. Over the past decade, more than 250 Fellows from about 50 countries have completed a fellowship at the IASS in Potsdam.

Attached you will find the call for applications for IASS Fellowships beginning in 2021. We would really appreciate it if could distribute the call for applications within your organisation. You can find the call online at <https://fellows.iass-potsdam.de/application/> and learn more about the IASS Fellow Programme at <https://www.iass-potsdam.de/en/institute/fellow-programme>. If you have any further questions, please free to contact the Fellow Programme directly at fellowship@iass-potsdam.de.

Yours sincerely
