

# Water Industry Careers Nights

Run by the AWA NSW Young Water Professionals Committee

## Interested in working in the water industry?

Join us for an opportunity to **meet and listen to early-career water professionals** talk about their experiences and career pathways in the water sector. This will be followed by an **open Q&A session** and informal **networking** through Zoom breakout rooms.

This **free event** is open to all students interested in gaining an insight into the water industry and is particularly suited to final year students from the engineering and science faculties.
