About WiSE Emergency Clinic

WiSE Emergency Clinic provides walk-in specialist medical care for non-life threatening illness or injury.

Our clinic was established by a group of passionate senior emergency physicians who wanted to help patients access care quickly, easily and with minimal waiting times. At the same time they saw that they could help reduce the burden on busy hospital emergency departments, enabling hospital staff to focus on the most severely unwell patients.

Why choose WiSE Emergency Clinic?

- Immediate access to specialist care
- Only staffed by experienced emergency physicians
- No appointment necessary
- No prolonged waiting times
- One stop shop
- CT, Xray, Ultrasound and Pathology available onsite
- Dental emergencies

What will it cost?

We charge a $200* fee to access our facility. This covers your medical assessment, pathology and imaging.

*This fee is not covered by medicare or health funds. (Bupa overseas insurance members are covered)

WiSE Emergency Clinic - Immediate care of non life threatening injury or illness and after hour care

Partnering with GPs and hospitals

We have strong relationships with all local hospitals. If you unexpectedly need hospital admission, we help make sure your transition is seamless.

We work with your GP, but we do not replace them.

We are there for out of hours consultations or when you need emergency medical care. We then liaise with your general practitioner so they can resume and coordinate your care.

If needed, we will refer you to a trusted medical specialist within our professional network for further specialist follow up.
WiSE Emergency Clinic – staffed by specialist emergency physicians.

Immediate treatment of non-life threatening conditions.

☐ No appointment necessary
Call before arrival on 9216 7676 so we are ready for you or alternatively just walk in.

☐ Open every day 10am - 10pm
Open all public holidays

Our team of experienced specialists provides immediate treatment for non-life threatening medical needs.

WiSE can help when you or your family need medical attention for an acute illness or injury, but your condition isn’t severe enough for a trip to the emergency department and your GP is unavailable.

WiSE Emergency Clinic provides immediate specialist care for but not limited to:

☐ Minor falls/trips
☐ Lacerations
☐ Suspected fractures
☐ Sporting injuries
☐ Vomiting and diarrhoea
☐ Dental emergencies
☐ Migraines/headache
☐ Mild asthma
☐ Problems in early pregnancy
☐ Fevers - adult and child
☐ Rashes and skin conditions
☐ Work place injuries
☐ Overseas and international students
